FOR IMMEDIATE RELEASE

Qsonix Supports Dealers With Ultra-Premium MusicGiants™ Rolling Stones Opportunity For Complete “Satisfaction”

AND TO “SHINE A LIGHT” ON THE JUST RELEASED SOUNDTRACK AND MOVIE

Westlake Village, CA (April 23, 2008) Qsonix, creator of the most user-friendly, quality digital music management and storage system has teamed up with MusicGiants, the leader in high-definition entertainment, to support dealers through the most robust collection of Rolling Stones content to date. For a limited time, this unbelievable package – which comes immediately on the heels of the just-released epic stones documentary “*Shine A Light*” – will be available exclusively to Qsonix dealers and customers looking for complete “satisfaction” from the Stones.

The collection, which features 418 HD tracks hand-selected by a MusicGiants’ Concierge, spans back to 1961, capturing the best of the Stones from their initial landing on the hard-core blues music scene through decades of hits that have come to define their one-of-a-kind sound. Fans can expect to hear their favorites such as *Sympathy For The Devil*, *Start Me Up* and *Gimme Shelter*, as well as several memorable live performances, including the just released live soundtrack from the movie, *Shine A Light*.

“With the powerful ease of Qsonix ‘best in industry’ user interface, dealers can introduce buyers to this exclusive Rolling Stones collection and an unparalleled experience of sorting, sampling and fully enjoying the music.” said Mike Weaver, President of Qsonix. “It’s time to get what true Stones-loving audiophiles deserve. Like the song says—and I’ll paraphrase just a little—‘if you try this time, you will absolutely find, you get what you need’ from a digital storage and management system in this exclusive package.”

Dealers will also give customers a commemorative *Shine A Light* movie poster to go with their premium collection. And the dealer who sells the most Rolling Stones packages during the promotion period ending June 30, 2008 will come out a big personal winner with his or her own complete collection.

“With the Rolling Stones epic documentary, *Shine A Light*, recently opening in theaters, we felt the timing was perfect to launch the first of many HD collections that delivers a truly great entertainment experience, not just to Rolling Stones’ fans, but music fans across the board,” says Scott Bahneman, CEO of MusicGiants. “QSonix

qsonix NEWS RELEASE

is the ideal partner to launch our HD collections because their exceptional media management system has several unique features that allow fans to enhance their music experience even further.”

Solidly committed to audio fidelity, Qsonix models feature high-quality components, D/A converters and digital playback technology to deliver the highest possible sound output quality. With its “best in industry” user interface, large 17” drag-and-drop color touch screen controller, and up to 1.5TB storage capacity (4500+ CDs), Qsonix offers the most powerful music library system available.

MusicGiants launched is the only music download service to offer high-definition, digital recordings from all of the top music companies such as Concord Music Group, EMI Music, Sony BMG Music Entertainment, Universal Music Group, and Warner Music Group. MusicGiants’ use of the WMA lossless format provides up to seven times the sound quality of any other download service.

The Stones collection is delivered ready-to-install via an external USB Concierge hard drive that is fully integrated and automated within every Qsonix music management system. Simply plug and play.

Dealers interested in selling or purchasing this ultimate HD package should immediately contact MusicGiants sales at 775.832.5692 X106. Standard dealer commissions apply to all MusicGiants Dealers.
