**FOR IMMEDIATE RELEASE**

### **QSONIX WOWS WITH NEW SCREEN SIZE AND SUPER STORAGE PLUS, NEW VERSION 2.42 SOFTWARE LAUNCHED**

**Westlake Village, CA (April 02, 2008)** – Qsonix indicates size counts as the maker of the most powerful and user-friendly music management systems anywhere introduces its new 17-inch touch screen controller. At the same time the industry leader in high quality media storage announced staggering storage capability along with additional powerful new hardware and software enhancements in the latest 2.42 version of their Q110 system.

The newest and most obvious hardware addition is a large color touch screen controller that enables users to easily view and operate Qsonix's acclaimed user interface controls. The TS17 touch screen panel can be tabletop or wall mounted.

New mega storage capabilities accommodate 1.5 terabytes (TB) of media. Clients with even the most extensive music collections can now store up to 4,000 CD's in high-quality lossless digital Windows Media Audio (WMA) mode or up to 25,000 in compressed format.

As Qsonix announces the release of Version 2.42 system software, users will appreciate the following significant enhancements and CD loading improvements; the ability to burn CD's while playing back; client support for DirectWay and satellite-based Internet service providers; ability to import music from external USB drives; and for the Electronics Systems Contractor (ECS), the Q110 now includes **Ready-to-Play**, the premier CD conversion service built-in interface for turnkey CD conversion and uploading. These enhancements plus new perks from MusicGiants™ that allow shoppers to readily purchase a single tune or an entire album make browsing and shopping for high-quality music a snap.

# **qsonix** NEWS RELEASE

The latest Qsonix software enhancements and new leading edge electronics clearly reaffirm the companies' leadership position in the industry and establish the Q110 V2.41 as the most powerful and user-friendly music management system on the market.

"We stay way ahead of the pack because of our commitment to constantly improve the user experience by listening to our users and dealers," said Mike Weaver, President of Qsonix. "They're the experts on what they need, and we're the experts on making it happen".

The new V2.42 software upgrade is seamlessly updated at no additional charge for Qsonix clients. The optional hardware electronics are available immediately.
