FOR IMMEDIATE RELEASE

**NEW AGOURA HILLS-BASED COMPANY RECOGNIZED BY NATIONAL
LIFESTYLE MAGAZINE**

**Qsonix's First Product, an Advanced Music Management System, Named to Top
10 List For Its Unique, Friendly User Interface.**

AGOURA HILLS, Calif. – January 9, 2006 – The Q100 Digital Music Entertainment (DME) System, made by consumer electronics new-comer Qsonix of Agoura Hills, was named one of the 10 Best Products of 2005 by Robb Report's *Home Entertainment* magazine. The Q100, a hard disk drive digital music server with a unique "drag 'n drop" touchscreen user interface, allows users to store, organize and playback up to 7500 CDs.

"We look at hundred's of products throughout the year, and choosing the 10 best can be difficult," said Home Entertainment's editor, Brent Butterworth. "The Q100 might have been the easiest selection we had to make. It immediately stood out as a groundbreaking product because of its unique user-friendly interface and colorful graphics." *Home Entertainment* is a national magazine that focuses on upscale home entertainment, consumer electronics, and design.

“It’s exciting to have our very first product so well received, especially given the level of competition we were facing,” said Mike Weaver, president of Qsonix. “This recognition validates all the time that’s gone into the planning and production of the Q100, and it puts us in a good position as we expand in 2006.”

About Qsonix

Located in Agoura Hills, California, Qsonix is a market innovator and leader in providing user-friendly digital media technologies. With its world-class user interface, Qsonix offers the most reliable and truly friendly digital music management systems available. Qsonix products address a wide variety of lifestyles, tastes and environments. Consumers and Businesses alike can quickly and easily store, organize and playback music without the hassle.

Qsonix’s entry into the Home Entertainment market is focused on music enthusiasts that are typically served by the custom installer channel for discrete audio and home theaters, as well as more complex whole house distributed audio environments.

Qsonix also markets to the commercial market, which consists of public venues where background music playback provides an important role in the mood, entertainment or theme of the establishment. Public venues include bars, pubs, clubs, restaurants, eateries, coffee houses, hotels, department stores, retail outlets and professional offices.
