FOR IMMEDIATE RELEASE

QSONIX CLOSES 2ND ROUND OF FINANCING

Music management Software Company accelerates development of new entertainment media management products.

Agoura Hills, California. – March 15th, 2007 – Qsonix, developer of the only music management system with a touch-screen, drag and drop interface, announced it has closed a new round of financing aimed at fueling the company's product development and retail expansion. The financing was provided by an unnamed private entertainment firm, which, in addition to capital, will also provide additional R&D and manufacturing resources. "Following up our successful launch of the Q100 product, we are extremely pleased to have received ample funding to take the company to the next level and beyond." commented Mike Weaver, President of Qsonix. "We now have the resources to dramatically increase our presence in the market and build on the success of our first products. We have many exciting plans and innovative technology in development, beginning with the launch of our version 2.0 software platform which is now shipping."

Qsonix has become recognized in offering the most intuitive, friendly and entertaining music management systems sold through the Custom Installation and Pro A/V markets. Qsonix is currently in the process of rapidly expanding its network of quality dealers and integrators throughout North America.

The Qsonix management team and staff is committed to delivering the finest products and user experience and to earn the respect of its business partners, by

offering excellent business opportunities, profits, marketing support, training and technical support programs.

“Proceeds from the investment will allow the company to introduce new next generation entertainment media management products including photo and video management, intelligent playback and exciting music acquisition capabilities. It will also focus on targeting mainstream specialty retail and International distribution along with marketing and branding techniques later in 2007” said Kelly Gamble, CTO of Qsonix.
